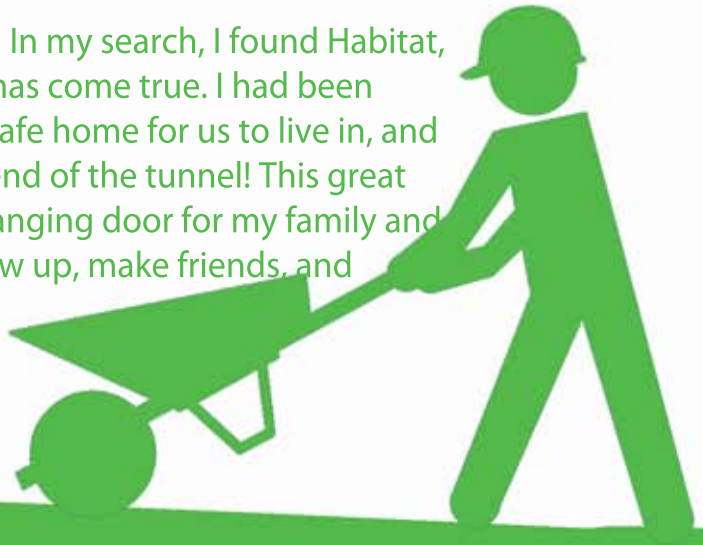
THE WALLS FAMILY

Hi, my name is Renay Walls, and I have been living in Delaware for 33 years. My husband Mike Walls and I have four beautiful children, Anthony (16), Codi (12), Mikey (4), and Logan (1). As a family we enjoy spending quality time with one another and strongly support each other's personal activities such as Little League baseball, football, and dance class. We have been living in the Town of Frederica for the past four years and have grown to love the area. Excitedly, my oldest son has joined the Frederica Volunteer Fire Company, and due to this experience, he is now pursuing a career in the EMS field . However, the affordability of housing has left its toll on my family and me. Due to this, I was faced with a decision to uproot my children and seek an affordable place to live.


Well, I can happily say that God answered my prayers! In my search, I found Habitat, and it has been more than just a dream but one that has come true. I had been struggling for many years to keep an affordable and safe home for us to live in, and with no doubt, Habitat has given me the light at the end of the tunnel! This great opportunity through Habitat has opened up a life-changing door for my family and me. Providing a safe place where my children can grow up, make friends, and cherish wonderful memories. With much thoughts of appreciation... Habitat has helped change our lives forever.
