

THE KNIGHT FAMILY

Hi, my name is Yolanda Knight, and I have lived in Delaware now for ten years. I have five children, 16, 14, 11, 8, and 6. As a family we enjoy playing sports and helping others. We live in public housing and the neighborhood is not safe, but we are grateful at the same time to have a roof over our heads, especially coming from shelters. Habitat means so much to us. We can't express our deepest appreciation for everything Habitat has made come true for our family. Our lives changed the moment Habitat announced that we were selected for the program. I cry most nights because I am so grateful for this opportunity for me and my children. I am just so happy for once in my life after ten years of horror
